

Texas Cord Blood Bank®

A Division of South Texas Blood & Tissue Center

Available TCBB Programs

TCBB Public Donations Program (through partnered hospitals)

This program stores publically donated cord blood units collected only at hospitals partnered with TCBB. This is a donation at no cost to the donor.

TCBB Non-Fixed Site Collections Program

This program stores publically donated cord blood units collected at accredited hospitals not currently on our list of participating collection sites. This is a donation at no cost to the family.

TCBB Related Donor Program

This program stores cord blood collections for families with a first degree relative (i.e. full biological sibling or birth parent) of the baby-to-be-born that is a candidate for a cord blood transplant. This first degree relative of the baby must be diagnosed with a disease/ disorder approved by this program. The cord blood will be stored exclusively for this family at no cost.
